COMPLEX TRANSLATIONS? We Accept the CHALLENGE!

LEGAL **GOVERNMENT**

In their effort to cover all the bases, American laws and regulations, both federal and state, can be extremely complex. They are not for light summer reading. Now imagine trying to explain vital regulations, those containing information critical for obtaining federal services, benefits, or disclosure of rights as required by law to the Limited English Proficiency (LEP) community.

Only highly skilled language experts can do that for you. Remember, providing language access to non-English speakers demonstrates acceptance, which inspires trust, which fosters cooperation, which results in a smoother process for all the parties involved.

This is where ATP comes in! Our team of multilingual professionals are trained and tested to help you comply with the Americans with Disabilities Act (ADA) of 1990 and the Executive Order 13166, Title VI of the Civil Rights Act of 1964, which outlines the regulations regarding language access.

At ATP, our meticulous attention to detail in every project drives our success. Let our professional services help to drive yours.

INTERPRETATION

We understand how important accuracy is to the legal and government entities. A rigorous screening process ensures that you consistently receive the highest qualified interpreters. All legal interpreters are evaluated and vetted based on certification, linguistic references, terminology, procedures and knowledge of ethics and protocols.

TRANSLATION

Legal translation is one of the most challenging and complex fields. It must be meticulously perfect in every way so it stands up to the scrutiny of opposing counsel, a fastidious legal clerk, the Secretary of State or notaries that validate their authenticity or challenge their accuracy. Our proprietary multistep translation process is overseen by project managers that frequently engage court certified linguists on the team; in case an expert or fact witness is required.

AUDIO/VIDEO TRANSCRIPTION & TRANSLATION

Prosecutors, Public Defenders, Federal Courts, DEA, FBI, as well as many other government agencies across the U.S. count on ATP's language expertise for Forensic Multilingual Transcription & Translation services; with good reason! We provide language support services to cover all facets of the legal process. Regardless of the language and dialect, our language experts and project managers are proficient with whatever audio or video media you need transcribed and translated - testimonies, hearings, body microphone recordings, phone taps or interviews.

Many of our linguists are trained and certified by reputable associations or have equivalent experience and education. Some of these associations include:

- American Translators Association
- Office of Language Services of the United States Department of State
- Monterey Institute Graduate School of Translation & Interpretation
- National Center for State Courts
